

WISCONSIN

JOIN THE FIGHT

Against Mandated Health Care And New Payroll Taxes

LEGISLATURE CONSIDERS NEW 15% PAYROLL TAX

Yes I join the NFIB and Wisconsin small-business owners in opposition to a government mandate that employers provide health insurance funded by a new tax on my payroll.

What are the details?

- Employers and employees will pay \$15.2 billion in new taxes the first year
- Proposal is funded by a new 10.5% tax on payroll of employers AND 4% payroll tax paid by employees
- Self-Employed would pay a new tax of 9.8% of net income
- Self-Employed, farmers, and part-time workers are included
- No Exemptions – All Employers and Employees are included (under 65)

Please add my name to the NFIB/WISCONSIN statewide petition drive to defeat a state government mandated health care system funded by a tax on my payroll.
